WHAT YOU SHOULD KNOW ABOUT FLOOR PAINTS

EPOXY FLOOR PAINTS ARE GOOD VALUE AND HARDWEARING. THEY WILL IMPROVE THE APPEARANCE OF CONCRETE FLOORS. THEY PREVENT DUST FROM THE FLOOR AND SEAL THE SURFACE. ALL EPOXY FLOOR PAINTS HAVE LIMITATIONS AS OUTLINED BELOW :

- 1 PAINTS ARE VERY THIN COATINGS AND HARD SHARP OBJECTS CAN SCRATCH THROUGH TO THE SUBSTRATE.
- 2 PAINTS WILL NOT FULLY HIDE REPAIRS AND CHANGES IN SURFACE TEXTURE SUCH AS CRACKS, HOLES ETC. TRANSPARENT FINISHES MAY HIGHLIGHT COLOUR DIFFERENCES IN THE SUBSTRATE
- 3 IF THE FLOOR HAS FIBRES IN THE CONCRETE MIX THEY MAY BECOME MORE NOTICABLE AFTER PAINTING, AS THEY CAN STAND UP WHEN PAINTED. HAIR FROM ROLLERS MAY BE NOTICABLE IN SOME PAINT COATS
- 4 PAINTS WILL WEAR OVER TIME ESPECIALLY IN AREAS OF HIGH TRAFFIC..
- 5 EPOXY RESIN PAINTS CURE BY CHEMICAL REACTION WHICH DEPENDS ON TEMPERATURE. COLD DELAYS CURE.
- 6 SINGLE PACK FLOOR PAINTS CURE TIMES CAN BE EXCESSIVE (SEVERAL DAYS) IN POOR CONDITIONS.
- 7 SINGLE PACK FLOOR PAINTS ARE APPLIED THINNER AND HAVE POORER DURABILITY THAN 2 PACK SYSTEMS.

Suregrip SEAMLESS RESIN FLOOR SCREEDS ARE TROWEL APPLIED AND PROVIDE A HIGHER STANDARD AND A LONGER LIFE EXPECTANCY THAN ROLLER APPLIED FLOOR PAINTS.
